

## 12<sup>th</sup> Tour de Rugga - Basic Game Play

The basic idea of the Tour is based on spread betting. Each game of the Super 15 will have a spread. You will then have to make a choice on each game deciding if you think the favourite can win by more than the spread or if the underdog will lose by less than the spread. You will then receive points based on the result of the game measured against this spread. Let's look at an example.

I will send out the games each week and what I send out will look something like this:

	<u>Favourite</u>	<u>Spread</u>	<u>Underdog</u>	<u>Multiplier</u>	<u>Joker</u>
Game 1	Cheetahs (H)	11	Lions	(x1)	1st
Game 2	Sharks (H)	8	Bulls	(x1)	1st

As you can see the teams on the left hand side of the spread are the Favourites while the teams on the right hand side of the spread are the Underdogs. If you want to bet on the Favourite then they will have to win by more than the number in the middle. If you want to bet on the Underdog they will get that many points head start.

So Game 1 above sees the Cheetahs (H) at home to the Lions. The Cheetahs are the favourites by 11 points. If you think that they can win by more than 11 points then you pick the Favourite. If you think the Lions can win the game or at least lose by less than 11 points then you take the Underdog. If the Cheetahs end up winning by 20 points and you chose them then you will win 9 points, if you took the Lions you will lose 9 points. On the other side as an example if the Lions had to lose by 5 points and you chose them then you would win 6 points and lose 6 points if you chose the Cheetahs.

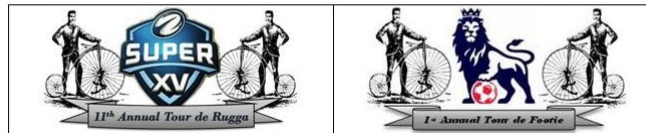

Each of the 125 games carry different multipliers. These will be indicated next to each match every week. All this means is that any points won or lost will be multiplied by this number.

You will also need to pick Joker bets each week. Jokers carry extra points so you will need to pick the games that you are most confident on as your Jokers.

In case you think that it is going to be complicated to be a part of the Tour, I have attached screen shots of the 7 step process that you will have to follow each week to submit your picks. It really is very simple.

You will be given a user ID and password that you will use to submit your selections each week. The process to make your picks is as follows:

Underneath, there are three fields: 'Tour No:' (empty), 'Name: Ian Ireland', and 'Tour name: The Boss'. The main heading is 'Weekly selection'. Below this, there is a section titled 'Games and Jokers' with three numbered items:

- 1. Cheetahs (H) 11 Lions (x1)  
This row has two columns: 'Favourite' with an unchecked checkbox and 'Underdog' with an unchecked checkbox.

At the bottom of the form area, there are two buttons: 'Back' and 'Submit'. A footer at the very bottom reads 'Copyright © 2014. Best Viewed in Mozilla Firefox.'

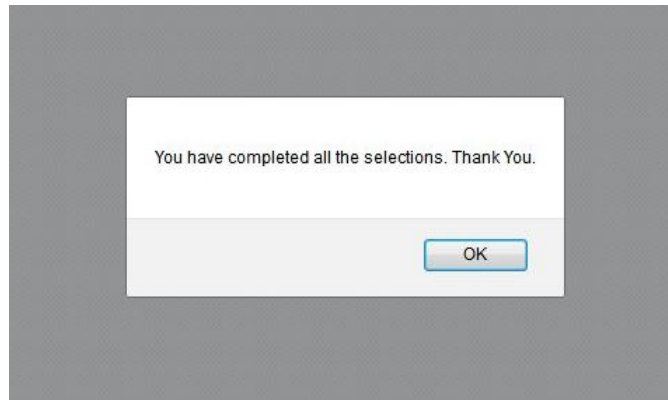

Step 5 - Click on either the Favourite box or Underdog box for each game & then click on the box of your most fancied game for your Joker bet. It will look something like this

This screenshot is identical to the previous one, but with several checkboxes selected:

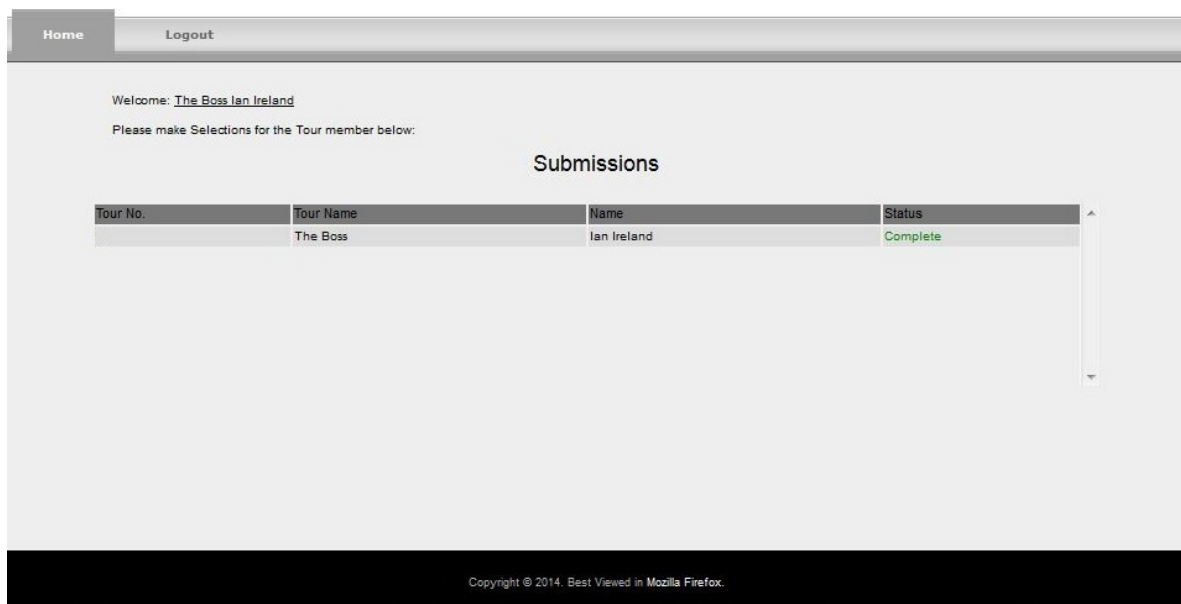

- For '1. Cheetahs (H) 11 Lions (x1)', the 'Underdog' checkbox is checked with a red checkmark.
- For '2. Sharks (H) 8 Bulls (x1)', the 'Underdog' checkbox is checked with a red checkmark.
- For '3. 1st Joker - Double all points won or lost', the 'Cheetahs v Lions' checkbox is checked with a red checkmark.

The 'Back' and 'Submit' buttons remain at the bottom. The footer text is also present.

Step 6 - Once you are happy with your picks, click on the "Submit" button. You will then see the following popup

Step 7 - Click on the "OK" button otherwise your selections will not be captured by the system. You will then be taken to the following screen where you can see the word "Complete" in green next to your name and then you will know that your picks have been captured and you can logout of the system.

If you are still not sure about the Tour please speak to someone who has played before or send me a mail and I will help you out.

Cheers
